WoundCare Companion™

Product Resource Guide

Information about our
advanced wound care
products and solutions

McKesson WoundCare Companion™

Advanced wound care is complex and critical to the health and wellbeing of your patients. Let McKesson Medical-Surgical help make it simple.

Let McKesson Medical-Surgical help you customize your treatment plan for wound care, saving staff time while helping your patients heal.

This Product Resource Guide provides details on advanced wound care products and information to help with CMS compliance.

With trusted options ranging from leading national brand manufacturers to our own McKesson Brands portfolio, you can easily find the appropriate products for your patients.

Collagens

Collagen wound dressings are derived from a variety of sources. They encourage deposition and organization of newly formed collagen fibers and granulation tissue in the wound bed, stimulating new tissue development.

Without antimicrobial silver

Foam dressings

Foam dressings are used to absorb exudate from a draining wound. They can be bordered or non-bordered, with or without silver, and come in a variety of shapes. Some bordered foams have been shown to reduce friction and shear. Consider these dressings to help protect bony prominences or areas at risk for skin breakdown due to pressure.

Negative pressure wound therapy

Negative pressure wound therapy (NPWT) involves the application of controlled levels of sub-atmospheric (negative) pressure to a wound. NPWT may stimulate formation of granulation tissue, increase blood flow, promote angiogenesis, reduce edema, improve wound contraction and protect from external contamination.¹

Hydrophilic wound dressings

Hydrophilic Wound Dressing provides a moist, mildly acidic environment which is conducive to wound healing. It has a patented formulation which includes zinc, Vitamins A and B6, calcium and magnesium.

PRODUCT DESCRIPTION	SIZE	MFR #
MCKESSON		
Hydrophilic Wound Dressing	3 oz.	61-SPD03

Medical grade honey

MEDIHONEY®'s high osmotic effect pulls fluid from deeper tissues to the wound surface promoting autolytic debridement. The naturally low pH of MEDIHONEY® helps lower the pH of the wound environment, which can impact chronic and stalled wounds.

Specialty absorptive dressings

Specialty absorbent dressings are highly absorbent. They help to decrease the risk of maceration and keep harmful wound components away from the wound and peri-wound skin. They contain a protective outer layer and nonadherent wound contact layer for easy removal.

Infection prevention

Infection prevention protocols help to protect the patient and the wound care provider. The Centers for Medicare and Medicaid Services (CMS) requires that long term care facilities and home health agencies maintain an infection prevention program based upon CDC or other nationally recognized infection control guidelines. Make the commitment to help prevent infections by utilizing safe and healthy practices every day. You have the power to be an infection preventionist and we are here to help.

Check out our infection prevention program at: mms.mckesson.com/content/infection-prevention/

Be advised that information contained herein is intended to serve as a useful reference for informational purposes only and is not complete clinical information. This information is intended for use only by competent healthcare professionals exercising judgment in providing care. McKesson Medical-Surgical cannot be held responsible for the continued currency of or for any errors or omissions in the information. The product information contained in this document, including the product images and additional product materials, was collected from various supplier sources. All product claims and specifications are those of the product suppliers, not McKesson Medical-Surgical or its affiliates ("McKesson"), and have not been independently verified by McKesson. McKesson is not responsible for errors or omissions in the product information.

The properties of a product may change or be inaccurate following the posting or printing of the product information in the document, either in print or online version. Caution should be exercised when using or purchasing any products from McKesson's online or print documents by closely examining the product packaging and the labeling prior to use. Due to product changes, information listed in this document is subject to change without notice. This information is placed solely for your convenience in ordering and McKesson disclaims all responsibility for its completeness and accuracy, whether or not the inaccuracy or incompleteness is due to fault or error by McKesson. McKesson Medical-Surgical is providing HCPCS codes based upon information provided by the product manufacturers. McKesson Medical-Surgical does not make representations about the accuracy of this information. The HCPCS codes do not indicate coverage or payment under any federal or state healthcare program. The entity that submits claims to any federal or state healthcare program has the responsibility to verify the accuracy of HCPCS codes it submits for payment purposes.
