

More Connected Health Care Means More Quality Care for Your Residents

PointClickCare® offers a proven technology platform with the breadth and depth of functionality to meet the growing needs of the senior living industry. See how they can help your organization enhance financial and operational performance and strengthen your market value, while expanding care services and improving resident outcomes.

Gives providers better visibility into a resident's health status and enables them to more quickly develop service plans and improve outcomes.

Manages the entire medication ordering and distribution process to avoid confusion with ordering medical supplies. EHR PointClickCare's Medication Management is proven to reduce errors associated with manual medication processes with intuitive technology that ensures the right resident receives the right medication, with the right dose, at the right time.

Helps you capture unscheduled services at the point of care to provide support information for review and justify increased service levels and additional charges for residents.
