Manufacturer/ Manufacturer #	Item/Model	Features
<b>Ambulatory Infusion Pumps</b>		
Smiths Medical ASD, Inc. 21-2127-0104-01	CADD®-Solis VIP Standard	Safe, simple, smart, secure – reliable pump performance, accurate medication delivery and ease of use
Smiths Medical ASD, Inc. 21-2120-0104-01	CADD®-Solis w/ PharmGuard®	
Moog® Medical 360-1400P	CURLIN® 6000	Multiple Therapy flexibility, safe, easy to use, reduces total cost
Eitan 17000-028-0072	Sapphire	Robust design, easy maintenance, and built-in adaptability . Varied clinical uses: hospital, ambulatory and EMS settings.(Ground and air support)
<b>Large Volume Infusion Pump</b>		
B.Braun Medical 8713050U	Infusomat® Space Infusion Pump	Independent modularity, space-saver stacking design, KeyGuard™ prevents manual programming errors, extensive drug library, wireless integration
B.Braun Medical 637-202	Vista® Basic	Maximum durability, three year battery life, easy to use and teach to others, program modes include: continuous and piggyback
Zyno Medical Z-800F	Z-800F	IV set based free flow - protects patients, health care workers and work environment; simple intuitive 3-step programming; configurable menus
Baxter 35700BAX2	Sigma Spectrum	Rental only – Configurable dose error reduction software; on-board, digital help screens
Fresenius Z019735	Agilia Connect Volumetric Pump	Compact design for increases ambulation, drug library maximizes compliance while mitigating dosing error, can be used table top for multiple care settings
<b>Enteral Pump</b>		
Moog® Medical INFKIT2	Infinity®	< 1 lb, ±5% accuracy, rugged for ambulatory use, manual priming, water resistant, no regular maintenance required
Moog® Medical INFORNG	Infinity® Orange®	Optimized for small volume feeding, can be used with milk or formula, no regular maintenance required
Cardinal Health™ 383400	Kangaroo™ Joey	Feed and flush technology with a compact, portable design, 18 hour battery life, auto-priming capabilities and 72 hour feeding history
Cardinal Health™ 382400	Kangaroo™ ePump	Feed and flush technology with 15 hour battery life, auto-priming capabilities and 72 hour feeding history
Cardinal Health™ 1236908	Omni	Through feed & flush technology, delivers nutrition and hydration throughout the entire continuum of care. Designed pump thick, homogenized and blenderized formulas, categorized as level 2, 3 or 4
Amsino PG001	Puggle	Large Color LCD Screen; easy to use; quiet motor; Fast charging 2.5 hrs.; 8 intermittent feeding modes; keeps memory of nutrition until cleared; interface available in multiple languages
<b>Ventilators</b>		
Vyaire™ Medical 18984-001	LTV™ 1150	Portability for easy transport, customizable settings, turbine technology eliminates need for a high-pressure air source
Vyaire™ Medical 18888-001	LTV™ 1200	Portability for easy transport, turbine technology eliminates need for a high-pressure air source, suitable for MR Environment
Vyaire™ Medical 301.100.030B	BELLAVISTA™ 1000	Portable and space efficient design, simplified preventive maintenance for a low cost of ownership, several technology features including 4 hour battery life and 13.3" touch smart screen, efficient ventilation and lung protection settings
Vyaire™ Medical 301.100.130	BELLAVISTA™	Bellavista Adult through neonatal support with a powerful turbine, highly configurable user interface and advanced synchronization. High Flow Oxygen Therapy & Adaptive Ventilation Mode allow for patient comfort and faster weaning times
Breas 230215	45	Outstanding clinical versatility and performance, designed to maximize independence and mobility. Integrated humidifier, heated wire connection, 2.5 h internal + 6.5 h click-in battery for use on the move
<b>Syringe Pumps</b>		
SClg60 Pump	FP-0010002	The SClg60 Infuser is a mechanical syringe pump controlled by a proprietary flow rate device. The pump design ensures compatibility with a wide range of subcutaneous infusions and its quality delivers reliable, long-term use without batteries or electricity. Easy for clinicians to train patients for home use.
FreedomEdge® Syringe Infusion Pump	F10020	Highly accurate constant pressure system. Can be filled from 1mL to 30mL. Dynamic Equilibrium and Precision flow rate tubing regulate the infusion rather than battery or electric power.
Koru Medical Freedom 60 Pump	F10050	Easy to use (wind, load and go), specifically indicated for the at home subcutaneous infusion, highly accurate constant pressure system. Portable and robust, designed for patient independence. Works with BD 50mL Syringe.
B. Braun Perfusor Space Pump	8713031U	Intended for use on adults, pediatrics and neonates. FDA clearance for air and road transport. Compact design, lightweight (3lbs) and flexible mounting positions allow for both vertical and horizontal delivery. Accurate +/- 2%, piston brake design prevents inadvertent bolus.
