Distribution you can count on

We make it easy to help you get the specialty pharmaceuticals you need

- Over 15,000 pharmaceuticals in stock nationwide
- Compliant with Federal and State regulations
- Real-time access to purchasing data and product documents
- Customer price management including contract eligibility
- Some products available in the lowest saleable size
- Fast shipping through our distribution network
- Excellent customer service with backorder management
- Shop for the medical supplies, lab products and test kits, and equipment you need for patient care
- Access technology like Controlled Substance Ordering System (CSOS) and inventory management tools to gain backoffice efficiencies

DUROLANE[®]

hyaluronic acid, stabilized single injection

The Most Preferred Single-Injection HA*

by Commercial Insurers¹

*Hyaluronic acid

Reference: 1. Bioventus LLC. DUROLANE Most Preferred Medical Benefit Lives. Data on file, RPT-001486.

DUROLANE is indicated for the treatment of pain in osteoarthritis (OA) of the knee in patients who have failed to respond adequately to conservative non-pharmacological therapy or simple analgesics, eg, acetaminophen. Risks can include transient knee pain or swelling at the injection site. See full prescribing information at DUROLANE.com.

We provide specialty drugs that specialists need for patient care

From managing inventory to negotiating contracts and filing for reimbursements, your day is spent handling the critical details that allow patients to get the life-changing specialty drugs they need. As experts in distribution, we've got your prescription for better efficiencies, savings, and support. Our pharmaceutical distribution brings you:

More efficient operations

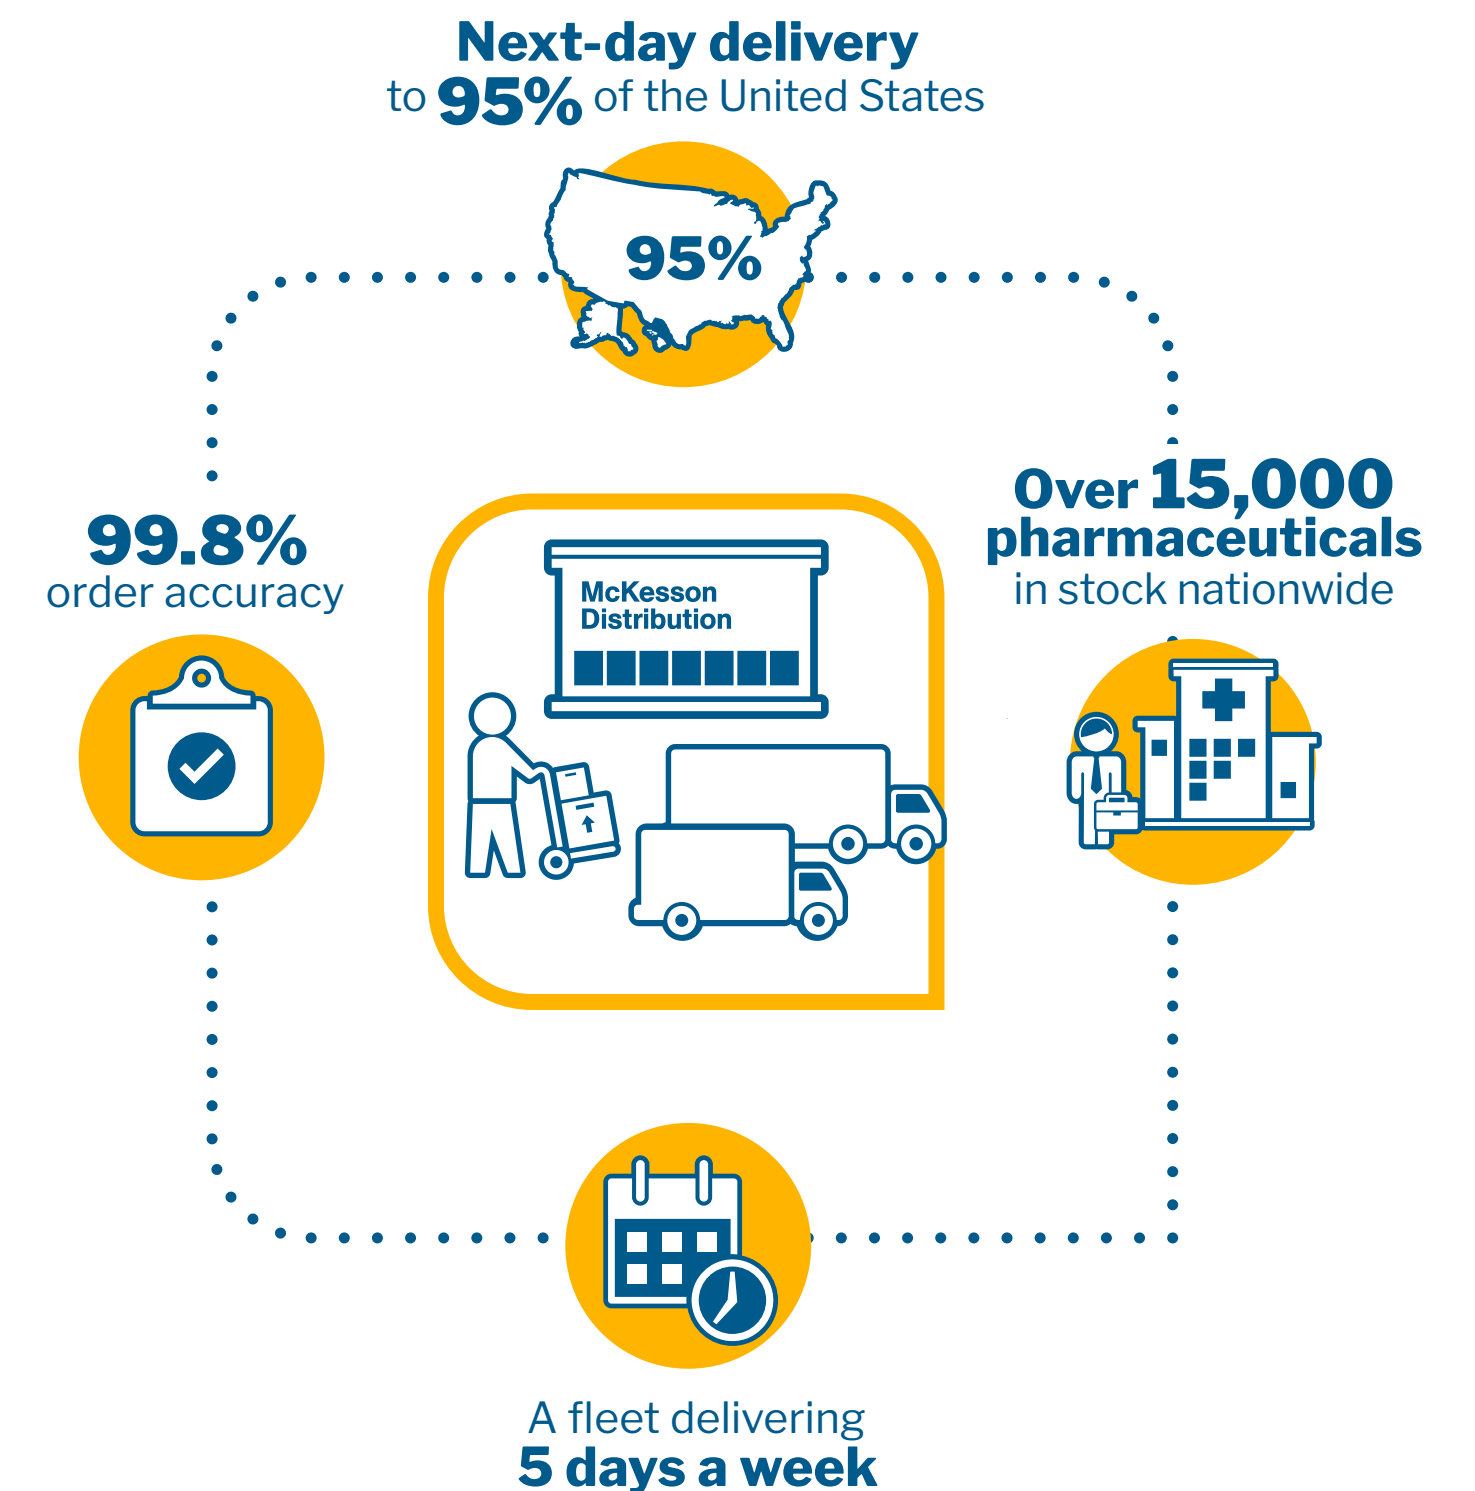

- One-stop shop for medical products, drugs, and lab supplies
- Simple, web-based ordering
- EDI and punchout capabilities
- Cold-chain expertise
- Local account management and customer service
- **Inventory management** tools to help automate supply chain processes

Cost-saving tools

- Competitive pricing
- Formulary management
- Business analytics
- Standardization strategies
- Manufacturer and local contract management
- Local, manufacturer, and group purchasing organization (GPO) contract support
- Savings through joining **Onmark**, McKesson's GPO
- Support for backorders

Access to clinical therapies

- New products regularly added
- Access to clinical education from drug manufacturers

Contact your McKesson Account Manager or visit mms.mckesson.com or call **866.625.2679**

Biosimilars

Biosimilars now available

Your patients require specialized care. We're here to deliver the specialty pharmaceuticals you need to help your patients. We have expanded our portfolio to provide you with more access to products to support improved patient outcomes and reduced patient costs. We now carry **biosimilars for rheumatology and gastroenterology patients.**

What are biosimilars?

Biosimilars are biological products that are developed to be highly similar to an approved FDA biologic. Biosimilars are not generic drugs. They are clinically engineered to provide similar clinical efficacy as the reference or original biologic. Biosimilars go through a regulated review and approval process through the FDA.

Biosimilars can have a meaningful clinical and financial benefit for patients and providers. Biosimilars can improve access to drug therapies for close to 1.2M patients, saving them approximately \$100B over five years¹.

Learn more about biosimilars and practices for adopting biosimilars.

Infectious disease

1.2 million
people in the U.S. have **HIV¹**

c.diff causes almost **half a million** infections **each year²**

Introducing UPrevent™

Dedicated prevention and infection control efforts in the U.S. have reduced deaths from antibiotic-resistant infections by 18% overall and by nearly 30% in hospitals.³ However, the number of people facing antibiotic resistance is still too high. More action is needed to protect people.

UPrevent™ infection prevention and control program is a single source for building and enhancing your infection prevention program. We provide recommendations and guidelines for key infection prevention areas. [Learn more.](#)

Rheumatology

U.S. adults with arthritis are projected to rise to 67 million according to a study conducted by the ACR’s 2015 Workforce Study.¹ Rheumatoid arthritis can be a serious disease. With the projected increase in patients, we are growing our specialty and branded injectables catalog so you can easily order the products you need from McKesson. [Learn more.](#)

Arthritis will increase as the population grows and ages. By 2040, an estimated **26% of the American population** aged 18 years or older is projected to have **doctor-diagnosed arthritis**³

Up to **14 million** people around the world have **rheumatoid arthritis**²

Urology

Whether you specialize in general urological care or men’s health, we have the pharmaceuticals you want to provide patient care. In addition, you can count on choice, reliability and excellent customer service.

Approximately
30%
of men and
40%
of women have
over active bladder¹

30% of men
ages 45 years and older have
low testosterone²

Prostate cancer
is the
2nd most common
cancer in men and the
4th most common
cancer over all.³

Pharmaceutical distribution services you can count on

Childhood and adult vaccines

- We have the vaccines you need for adults and pediatrics
- One order to place for supplies on one invoice
- Save on shipping and receive next day delivery on orders
- **Confidently order what you need and return expired vaccines, if necessary**
- Necessary regulatory data maintained on McKesson SupplyManagerSM
- Order the ancillary supplies you need to administer vaccines

Influenza vaccines

Let McKesson FluWise[®] help you get ready for flu season with our comprehensive, year-round program giving you access to a variety of flu products, savings and support along the way.

When you order flu vaccines from us, you get:

- No limit on shipping locations per order
- No order minimum
- Dedicated flu team
- Extended terms
- Competitive return policy for eligible pre-books
- Seasonal supplies
- Year-round promotional offers

Generics

No matter your care setting we have the generics you need, including:

- Corticosteroids
- Analgesics
- Anti-infectives
- Anesthetics
- Cardiovascular agents
- Ophthalmic agents
- Hormone agents and suppressants
- And more!

Pharmaceutical services

- CSOS – electronic CII ordering
- McKesson Business AnalyticsSM
- Pharmaceutical disposal
- SDS reporting
- Low unit of measure available on some items

[Click here to learn more](#)

Drug Supply Chain Security Act (DSCSA)

On Nov. 27, 2020, primary care providers and other dispensers may only accept products with valid Product Identifier.

Visit the [FDA DSCSA Website](#) for more information.

McKesson Medical-Surgical is DSCSA compliant.

DSCSA is administered by the Food and Drug Administration (FDA) and has these objectives:

- Pharmaceutical drug integrity
- Traceability of drugs through supply chain
- A system of unique product identifiers
- Robust transaction history and information
- Efficient verification requests, responses to suspect/ illegitimate products, effective recalls as needed

- National licensure standards for wholesale distributors and third-party logistics organizations

Learn more about how to be drug supply chain compliant.

■ Black Box Warning

McKesson Medical-Surgical is providing HCPCS/ CPT codes based upon information provided by the product manufacturers. McKesson Medical-Surgical does not make representations about the accuracy of this information. The HCPCS/ CPT codes do not indicate coverage or payment under any federal or state health care program. The entity that submits claims to any federal or state health care program has the responsibility to verify the accuracy of HCPCS/ CPT codes it submits for payment purposes.

The product information contained in this document, including the product images and additional product materials, was collected from various supplier sources. All product claims and specifications are those of the product suppliers and have not been independently verified by McKesson Medical-Surgical or its affiliates (“McKesson”). McKesson is not responsible for errors or omissions in the product information. The properties of a product may change or be inaccurate following the posting or printing of the product information in the document, either in the print or online version. Caution should be exercised when using or purchasing any products from McKesson’s online or print documents by closely examining the product packaging and the labeling prior to use. Due to product changes, information listed in this document is subject to change without notice. This information is placed solely for your convenience in ordering and McKesson disclaims all responsibility for its completeness and accuracy, whether or not the inaccuracy or incompleteness is due to fault or error by McKesson.

The information contained in this form, including coding information, reimbursement rates and potential revenue, was obtained from various sources. It is subject to change without notice and has not been independently verified by McKesson. The data and information are provided “as is” and you agree and acknowledge that neither McKesson nor any of its affiliates makes or gives any representation, warranty or endorsement with respect to any data or information in this document (including its reliability or accuracy) or the results that may be obtained from the use of the data or information, and there are no express or implied warranties, including, without limitation, implied warranties of non-infringement or title, merchantability, fitness for a particular use and fitness of information for any purpose. McKesson does not warrant or represent that any information or data provided to you will be complete or accurate, and you agree and acknowledge that McKesson shall have no liability with respect to or relating to any data or information provided hereunder, whether or not the inaccuracy or incompleteness is due to fault or error by McKesson.
