

Wound Care  
Education Institute

## CERTIFICATION COURSES

Invest in wound management **excellence** and **differentiate** your services.

### About Relias Wound Care

The Wound Care Education Institute (WCEI) and Relias Wound Care provides nurses and healthcare professionals in all care settings the knowledge and tools to specialize in wound and ostomy care. Our extensive library of accredited educational courses incorporate adult learning principles and applies realworld, evidence-based content to prepare clinicians for their specialty roles in an interactive and engaging way. By delivering education in person, live online, or online, we ensure access is available to everyone. Courses are developed for multi-disciplines including all level of Nurses, Therapist, Physicians and Dietitians. Visit online course pages for CE information.

## Education that will improve clinical skills and patient outcomes

### WOUND CARE CERTIFICATION COURSE

The Skin and Wound Management course offers an evidence-based approach to wound management and current standards of practice to keep clinicians legally defensible at the bedside.

### OSTOMY MANAGEMENT CERTIFICATION COURSE

The Ostomy Management course focuses on the treatment, therapy, and counseling for individuals before, during, and after a fecal or urinary diversion. Online pre-course modules are completed before the class.

### DIABETIC MANAGEMENT CERTIFICATION COURSE

The Diabetic Skin and Wound Management course takes you through the science of the disease process, focuses on limb salvage and prevention, and covers the unique needs of a diabetic patient.

## Educational Pathways

180-Day Online Self Paced | Live Virtual | Live In-Person

## Value of WCEI's Certification Courses

Use VIP rewards or take advantage of group rates.

- Learners in live classes can start reviewing course materials prior to the class starting
- Test your knowledge after each lesson with helpful practice questions
- Use study-support tools like learning games and clever digital flashcards to reinforce your understanding of concepts
- Gauge your exam readiness by taking full-length, timed practice exams
- Study on the go with a mobile-friendly format
- Eligible students can take the certification exam through the credentialing board
