

MCKESSON

Reliable equipment service you can count on when patients are counting on you

McKesson Biomedical Solutions™

Need support handling equipment repairs? McKesson can help.

Equipment service can be complicated, costly, and unpredictable – imposing significant costs on your business. That’s why McKesson Biomedical Solutions™ is here to help. With McKesson Biomedical Solutions, you can access all of the equipment service support you need to keep your devices patient ready.

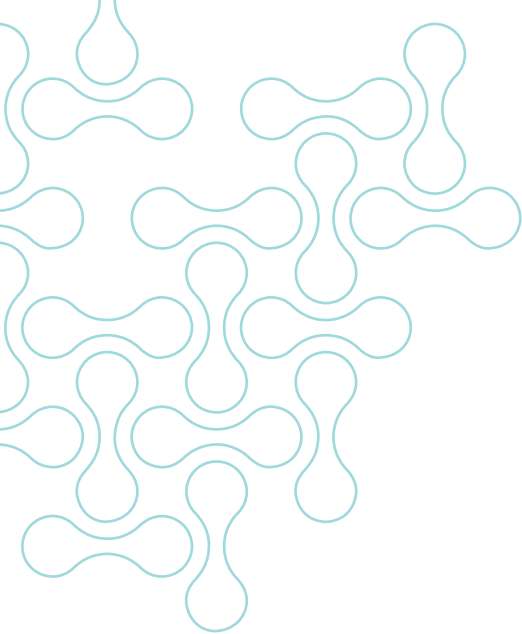

With over 150 technicians trained to service devices in our ISO-certified facilities across the U.S., plus warranty work and easy-to-access audit documentation connected through McKesson OneTrack®, McKesson has your service-related needs covered.

McKesson Biomedical Solutions offers:

- Preventative maintenance and repairs, including warranty and recall management
- Seven ISO 13485:2016 certified biomedical service centers with more than 150 technicians
- Repair and service history documented by McKesson OneTrack® for compliance audits
- Quick turnaround on preventative maintenance and repairs
- Specialist teams ready to support you

Let McKesson Biomedical Solutions™ support you, so you can focus on your patients.
