Flu Vaccine FAQs

Q: When will my flu vaccine arrive?

A: Flu vaccines typically arrive between mid-August and mid-October. McKesson will contact you by phone or email when your flu vaccines are available for shipment. We ship flu vaccine based on manufacturer availability.

Q: Does McKesson carry any thimerosal-free or preservative-free influenza vaccines?

A: Yes. Our pre-filled syringes are thimerosal-free/preservative-free.

Q: Can COVID-19 and flu vaccines be administered at the same time?

A: Yes, according to the CDC, flu vaccines and COVID-19 vaccines can be given at the same time.

Q: When is the best time to get my influenza vaccine?

A: September and October are good times to get vaccinated. However, as long as flu viruses are circulating, vaccination should continue into January or later.

Q: Is there a combination vaccine for flu and COVID-19?

A: No. There is not currently one approved by the FDA.
